## Aberdeen Sport Village

### Scotland's newest centre of sporting excellence.

Aberdeen Sports Village is a £28 million sporting facility which opened its doors to the public in August this year. The Sports Village is a joint venture between Aberdeen City Council, Aberdeen University and Sport Scotland.

The Sports Village provides northern Scotland with state-of-the-art Olympic indoor and outdoor facilities capable of hosting international events, and has already been selected as a training venue for the 2012 Olympic Games to be held in London.

Courtcraft are proud to have been chosen by main contractor Barr Limited to fit out the squash courts and to supply and install 2200m<sup>2</sup> of hardwood sports flooring on this prestigious project.

- A 1500m<sup>2</sup> nine-badminton court sports hall
- Four championship squash courts (two glass-backed)
- The 'Sky' Studio (aerobics and dance), The Sports Studio (martial arts, boxfit and cycling)

Glasswalls

### Squash courts

The Sports Village boasts four championship-standard squash courts: two tournament courts with glass-back walls; and two solid-backed practice courts with glass doors. Courtcraft fitted out the courts with all of the specialist finishes, required, to highest standards with World Squash Federation approved products:

- Armourcoat plaster
- Ellis Pearson glasswalls and doors
- Junckers SylvaSquash floors with Logic cradles
- Armourcoat court accessories (playlines and tins)
- Court markings

## Aberdeen Sport Village

Scotland's newest centre of sporting excellence.

### Studio floors

Courtcraft supplied and installed hardwood sports flooring in two studios at the Sports Village. Situated on the top floor, the 'Sky' studio hosts group activities such as aerobics, step, Pilates and yoga.

On the lower floor the Sports studio is intended for use by martial arts & boxing clubs, and for studio cycling.

Reiach and Hall Architects chose Junckers SylvaSport beech flooring with a Logic cradle and batten undercarriage system for both studios to provide resilient, safe, slip-resistant surfaces suitable for this wide range of activities.

### Sports hall flooring

This superlative 1500m<sup>2</sup> sports hall accommodates nine badminton courts and has court markings for tournament and practice basketball courts, competition netball, volleyball and indoor hockey. Junckers SylvaSport beech flooring was chosen by Reiach and Hall Architects, and was laid on a Logic cradle and batten system, to provide a state-of-the-art sports floor suitable for the highest level of competitive sports, complying with current European performance standards. Courtcraft also installed all of the court markings and specialist sports skirtings.
