WALL PANEL SYSTEM

**WORLD
SQUASH**

ACCREDITED
PRODUCT

WSF

The First & Only British **World Squash Federation Accredited Court Company**

Designed, manufactured & built entirely within the UK, **Renov8** is a single skin system and can be used for new build or existing court renovations – for both front and side walls. It is installed directly onto existing blockwork or plastered walls. A cavity between the block & panel is filled with fire-dried sand.

Finally, all of the surface joints are fully prepared & filled. This ensures that the panel surfaces are free of visible joints & gap lines, before applying the specialist 'hardwall' coating. A front wall would take 3 days to install and the court is then immediately ready for action.
